

# The World as MIRROR

The whole man was created in the image of God. Some parts are not less in the image of God and some more.

## THE WORLD AS MIRROR

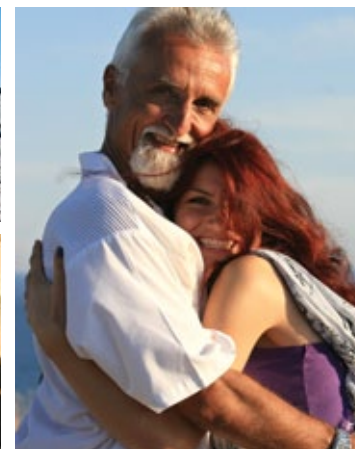

"The reality we can talk about, is never the reality 'in itself', but only a reality [...] to which we have given form."

Werner Karl Heisenberg, Nobel price in physics 1932

What the famous quantum physicist has phrased so radically at the beginning of last century, is already since milleniums a basic part of the mystical and spiritual schools in East and West. The thought that we are the creators of the world and that at the same time the world is the mirror image of our innermost being, opens up the path for an unexpected potential of change within ourselves as well as the world. The German philosopher, August von Schlegel describes this potential in the following way: "It is the clarity, the energy, the abundance, the universalism, with which the universe is mirrored in its human spirit, and how this mirroring is again reflected in it, what defines the degrees of its artistic genius and enables it to build a world in a world." The way, how we can make this knowledge useful for our own self development, will be made accessible for us by the world famous tantric master, Aba Aziz Makaja, member of the *World Association for Sexual Health* (WAS), as well as by diverse guest lecturers, by means of meditations, lectures and workshops.

Summer school, as well as Komaja's tantric summer courses, take place at the beautiful *Cherry Blossom* guesthouse on Croatia's Istrian peninsula. The Istrian coast has a typical Mediterranean climate with hot summers and mild winters. The woods extend right down to the edge of the sea, which is beautifully clean, and the beaches remain predominantly untouched with unique flora. Pula is the unofficial capital and cultural centre of Istria ([www.pula.net](http://www.pula.net)). One of Pula's main attractions is its huge and well preserved amphitheatre which dates back to the Roman empire. Walking through the centre of Pula feels like a trip back in time. Dante Alighieri mentions Pula in his "Divine Comedy".
